

Transforming lives through the arts

In-Person and Virtual Classes Are Happening Now!

[Programs](#)

City Hearts provides a unique blend of arts and literacy focused educational programs, defined by and created in response to the needs of underserved children ages 5-18. Classes take place at our community and school partner sites with limited or no access to the arts. All classes are completely free of charge.

If you are a principal or teacher and you would like to have a City Hearts program in your school, please email Stephanie Silberman at stephanie@cityhearts.org to learn more about our classes.

ABOUT US

City Hearts is dedicated to providing the highest quality arts education programs and experiences to children in the most economically distressed neighborhoods of Los Angeles County, thereby enhancing self-esteem, creativity, literacy, social and academic skills while strengthening the health and vitality of children and their community.
