

NJ Women Vote

NJ Women Vote explores the challenges presented by racism, sexism, and classism in the fight for the ballot in a series of five short videos.

PCK Media tells thoughtful stories that are emotionally engaging and visually stunning.

PCK Media is an award-winning documentary production company founded in 2010. Whether destined for national PBS broadcast or an organization's website, our goal for every video is to communicate a creative vision.

PCK Media produces the New York and Mid-Atlantic Emmy Award-winning series *State of the Arts*, which airs weekly on NJ PBS, WHiTY, and All Arts Public Media. Our national PBS productions include *Cele in Jay: Bombardier's Symptomatic No. 9* (2016), *Putting Out All the Stops* (2016), and *Ancor Murray Lindbergh: You'll Never See Sky* (2017). Most recently, *Kea's Ark* premiered in 2021 on NJ PBS and will be distributed nationally by APT in 2022.

We've worked with many clients, producing performance specials and documentary films featuring dance, history, pre-K education, and Nobel Prize-winning scientists – to name a few.

Contact us and let us know how we can help bring your story to life.
