Everything was awesome. All my guests were impressed and the door gifts spurred many conversations. Will definitely order again!

We have used Level Up for several parties and events and are always impressed with the products and service. I cannot design anything and do not even try. Most often, I just send an email with an image of something I saw or liked and ask them if they can do the same. They have always delivered exactly what I was looking for and they provide a proof before proceeding. They seem very interested in what their customers are trying to achieve and I love being able to discuss and interact about my order and ensure everything is perfect. Highly recommend.

I had 4 days to get items for over 100 guests. I spoke with Chris at level up about my situation. He walked me through all the different items we could combine or create and deliver within my budget and timeline. I got over 100 table gifts, a dozen table toppers, banners, stickers, and everything I needed before the event and everything looked awesome. They even threw in a few killer hats as swag. Thank you SO SO much for helping me. You really saved the day! Many thanks!!
