TWILLORY TODAY, TWILLORY TOMORROW

UNIQUELY TWILLORY

THE TWILLORY TEAM

TWILLORY TODAY

Don't know your past, Don't know your future – Ziggy Marley

Yes, we are a startup. We started in 1892. Our history in manufacturing begins in Austria at the turn of the century with Emanuel Goldschmidt (above). The business was transplanted by Alfredo Goldschmidt (on right) to Argentina mid-century and finally to New York in 1960. Now it is Ricardo Goldschmidt, Twillory's president, who carries on his family heritage in textile design and apparel manufacturing.

Our company still crafts and produces millions of garments yearly for clients worldwide. This extensive firsthand experience has made us all too aware of the uncontested and unfair retail markup structure. We are positioned to offer an authentic alternative. Some call it disruptive, we simply call it Twillory.

We hold ourselves to the highest standard. To ensure maximum quality control, a founding partner (Andy) has taken residence and runs our overseas office in close proximity to our factories. This ensures close monitoring of production practices as well as our ethical standards and environmental impact.

Our legacy and intensive efforts have given us a new calling; to enhance our customers' experience in particular and the retail model overall.

TWILLORY TOMORROW

Call it the New Retail Age. We envision a time when retail will be infused with transparency, social responsibility, and true consumer candor. Twillory aims to be a leader in this trend by perpetuating

GOODR GALA

The goodr gala is a monthly gathering taking place at the goodr cabana for people who want to hang out, have some free snacks and drinks and see how we roll. If you're looking to work with our belligerent brand or you're just a fan of start-up stories and culture, the goodr gala is for you.

WHY SHOW UP?

Do you love goodr in an unhealthy way?

Do you want to learn more about how we do?

Do you want to work with us?

Do you want to learn how the heck we come up with those ridiculous names?

Do you want to get drunk with us?

CHOOSING THE RIGHT THEME

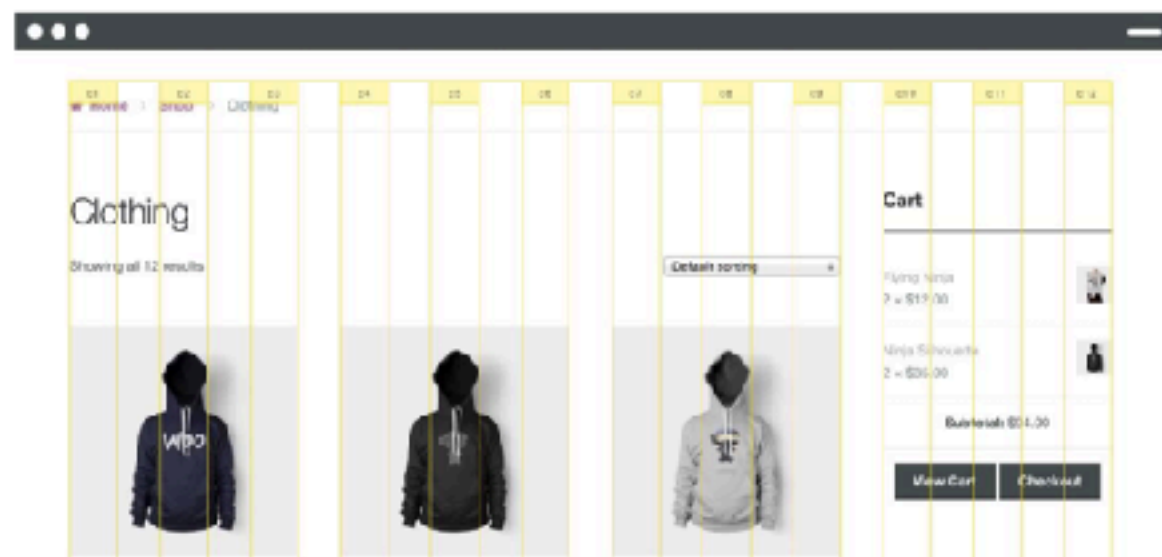

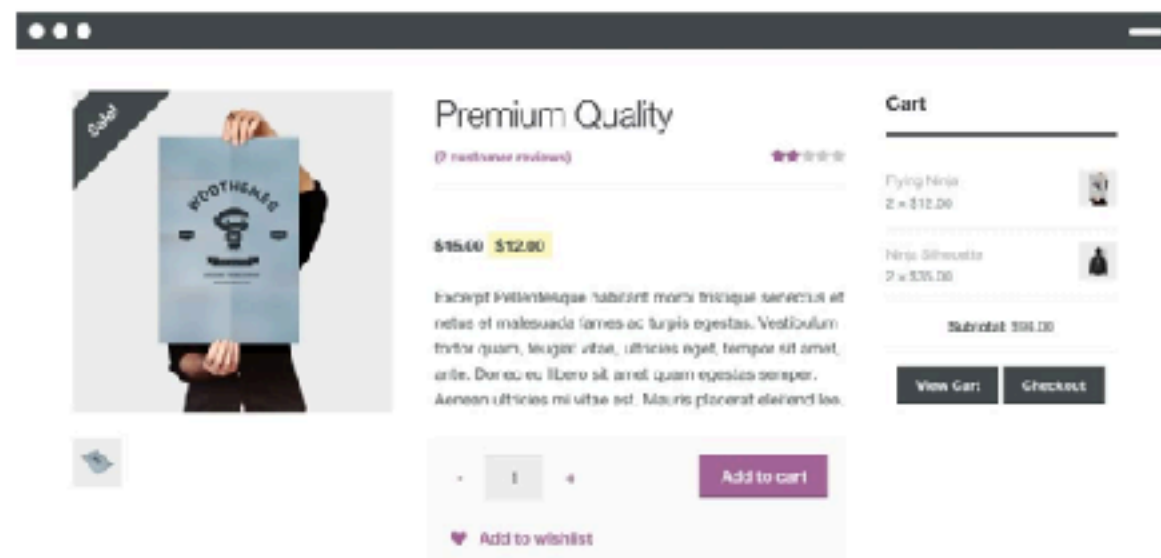

Storefront is an *intuitive & flexible*, free WordPress theme offering deep integration with WooCommerce.

It's the perfect platform for your next WooCommerce project.

Bulletproof WooCommerce integration

Storefront is built and maintained by WooCommerce core developers so you can rest assured the integration between WooCommerce, WooCommerce extensions and Storefront is water-tight.

Uptime is of utmost importance to any eCommerce site. Say goodbye to fear of conflicts between theme and plugin during major WooCommerce updates.

Mighty Oaks from little Acorns grow

The Storefront platform is built on solid foundations. Based on the popular Underscores starter theme (which Automattic use for all themes on WordPress.com) it also features a responsive layout, flexible, nestable grid system and schema markup for enhanced SEO performance.

Improve Your Best Sales Tool: Product Reviews Pro

It's no secret that *product reviews* are an extremely powerful tool for online conversions as they provide **social proof**. Studies show that **about 70% of customers** look at product reviews before purchasing ¹, and **over 63% of customers** are more likely to purchase if a site has product ratings and reviews ². Some studies even suggest that these statistics are higher:

85.57% of the participants stated that they read reviews often or very often before they purchase online. Of the participants who read reviews, 83.65% compare positive and negative reviews with each other. ³

While product reviews are extremely powerful selling tools, they're typically underutilized by online stores. WooCommerce includes some of the best core review options available, yet these still underachieve when compared to what product reviews can do.

That's what **WooCommerce Product Reviews Pro** is for: you can supercharge your product reviews to add Amazon-style reviews and filtering, add even more review capabilities, and provide additional discussion options. Give your customers the review capabilities **they expect** from shopping at large e-retailers within your own store!

Product Reviews Pro will allow you to accept product reviews in the same way that you do now, but you can also accept user photos and videos as part of the review, as

Let Customers Pay What They Want With Name Your Price

Name Your Price can be applied to simple, subscription, variable and bundled products at present. Support for variable and bundled products requires WooCommerce 2.1 or greater.

The Name Your Price plugin lets you be flexible in what price you are willing to accept for selected products. You can use this plugin to accept user-determined donations or to take a new approach to selling products. You can suggest a price to your customers and optionally enforce a minimum acceptable price, or leave it entirely in the hands of the customer.

[WooCommerce](#)-powered shops can save abandoned carts with Jilt to recover lost sales.

Jilt lets you set up **recovery emails**, which are triggered after a cart has been abandoned (you can set the timing to whatever you'd like!) — these emails encourage customers to complete their purchases. Recovery emails are grouped into **campaigns**, which can be enabled or disabled, letting you tailor emails to specific holidays or sales as needed.

Benefit from built-in best practices and top-notch performance, as Jilt is built by a team of [WooCommerce experts](#).
