HOW IT'S MADE AT WATERSTONE

Take a look inside our California factory and see how kitchen faucets are manufactured in America. We Made It - As a company, as a team, as an individual. It is a core believe here that every single person has a part in making every faucet that goes out the door. Our Waterstone family takes such pride in what they do. Everybody here works to make a better product, a better work environment and a better experience for our customers.

THE ONE MINUTE WHEEL

See one of our amazing assemblers build a Wheel Pulldown Faucet in one minute! The Wheel Faucet is the most unique and intricate design we have in our line. It is made up of over 60 parts. The attention to detail and the craftsmanship is what our crew take pride in. We love what we do! Here at Waterstone, we're proud to be the only American made kitchen faucet company in the industry.

**Welcome to Waterstone Faucets!** Since 1999, our company is all about Blending Art and Technology. We create the designs we love and then find a way to make them tough enough to be worthy of a lifetime of use in your kitchen. **We are proudly made in the USA!** Yep, for years and years we have made it all right here in our factory in Southern California and we take great pride in being able to say that we are truly made in America.

We invite you to spend a few minutes with us to discover the many exciting products we offer. Find out why our products are so sought after by designers, architects, high end builders, and homeowners that want the best.

Take a tour of our California factory. Meet our machinists, craftsman and engineers who create our luxury kitchen faucets. We love faucets! The pride we show creating jewelry for your kitchen is obvious in the look and quality. We're sure you will understand why nobody has a passion for Kitchen Faucets like we do – **NOBODY**. Take a look at our "Suited" products. Faucets and accessories that match in both finish and style. Our patented Gantry Pulldown Faucets, Pulldown Faucets, Bridge Faucets, Kitchen Faucets and more! We've got something for everybody's kitchen.

### THE *Wheel*

#### WATERSTONE RE-INVENTS THE WHEEL!

A truly one-of-a-kind kitchen faucet, The Wheel Pull Down Kitchen Faucet, raises the bar for the Pulldown Faucet category. The Wheel's innovative design was inspired by the wheel of a ship and the adventurous spirit of American ingenuity. The Wheel's pulley spray design is built with the quality and craftsmanship you would expect from an American Made kitchen faucet.
